All officer accessions and prior service enlisted accessions (first duty station as an officer) should report directly to the Personnel Employment office at the Military Personnel Flight for in-processing prior to reporting to their respective units. The MPF is located in the Consolidated Support Facility, 5 Seller Ave., Bldg. 3000, on main base. In-processing for all other enlisted and officer personnel is conducted at the gaining unit. WEATHER

Sun and wind, not heat, are the primary year-round characteristics of Edwards' weather. Skies above Edwards are sunny more than 350 days per year. Winds usually pick up in the afternoon from the southwest to the west and can become strong at times, particularly in the spring. Edwards' clear skies, desert climate and 2,300-foot elevation result in a 30-degree to 40-degree difference between daytime and nighttime temperatures. Mild evening temperatures and low humidity make the hot summer months surprisingly comfortable. Precipitation is rare between April and October and only accumulates approximately five inches per year. Snow flurries occasionally fall, but rarely stick to the ground. The chart below shows average temperatures and precipitation.
